Project Title:
Side-by-Side Stats: Analyzing the Cricketing Careers of Virat Kohli and Babar Azam

Overview:
This Power BI dashboard compares the illustrious cricketing careers of two modern-day greats, Virat Kohli and Babar Azam, across Test, ODI, and T20I formats. The dashboard visualizes key statistics such as matches played, batting averages, strike rates, hundreds, fifties, boundaries, and catches, offering a detailed side-by-side analysis of their performances.

Key Insights:

- **Matches Played**: A total of 824 matches combined, with a breakdown by format.
- **Batting Performances**: Kohli and Azam's **batting averages**, **highest scores**, and the number of centuries and fifties highlight their consistency across formats.
- **Strike Rate**: Both players' ODI and T20I strike rates are compared, offering insights into their aggressive play styles.
- **Catches**: Fielding stats, including total catches taken by each player, demonstrate their contributions in the field.

Visual Elements:

- Bar charts comparing batting averages, highest scores, and strike rates.
- Summary statistics for centuries, fifties, boundaries (fours and sixes), and fielding contributions.

This dashboard is an excellent tool for cricket fans and analysts to compare two of the most successful modern-day batsmen, visually showcasing their career achievements in an intuitive and interactive format.

Summary: Cricket Career Analysis Dashboard (Self-Development Project)
Developed an advanced Power BI dashboard to perform a comparative analysis of the cricketing careers of Virat Kohli and Babar Azam across Test, ODI, and T20I formats. Utilized DAX queries and dynamic visualizations to showcase key performance metrics such as runs scored, batting averages, strike rates, centuries, and fielding statistics. Delivered an intuitive and data-driven solution to highlight career achievements, improving insights and decision-making for cricket analysis.
